Synopsis: "Talk To God" by DeiAmor Verus follows one man's journey toward redemption after the death of his wife. He is forced into an unlikely companionship with a man who proves to him that he is God. Their raw and often visceral time together, walking through the urban jungle, will exhaust your emotions, test your sensibility, and, with every jaw dropping revelation, demand you to rethink everything you believe in.

Critique: Written with an impressive candor and a genuine flair for the dramatic, "Talk To God" is a terrific read by a terrific author. Thoughtful and thought-provoking, this is a story that will linger in the reader's mind long after the volume is finished and set back upon the shelf. Very highly recommended for community library collections. For personal

reading lists it should be noted that "Talk To God" is also available in a Kindle edition (\$15.99).
